What Inspires

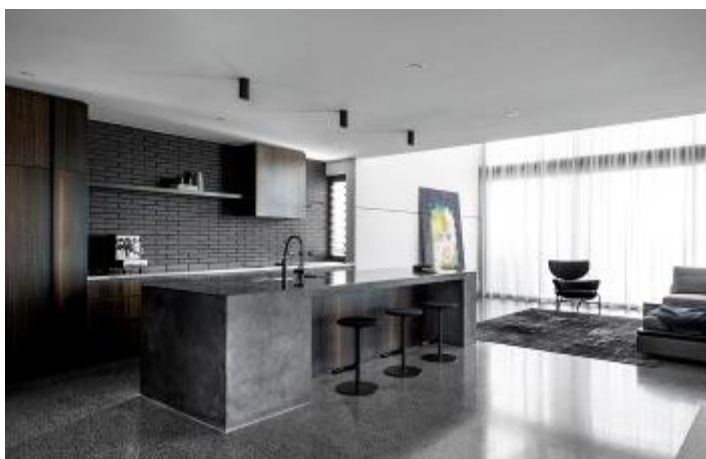

At Idlesquare we transform ordinary living spaces into exceptional homes.

We do this by combining the natural with the artificial, enabling any space to come to life.

In this first part of our portfolio we have included design solutions that inspire us.

Hopefully these ideas inspire you too, and why wouldn't you strive for ideal, if you can?

02

Our Purpose

Our purpose is to mold you a sanctuary as we transform the ordinary into the exceptional.

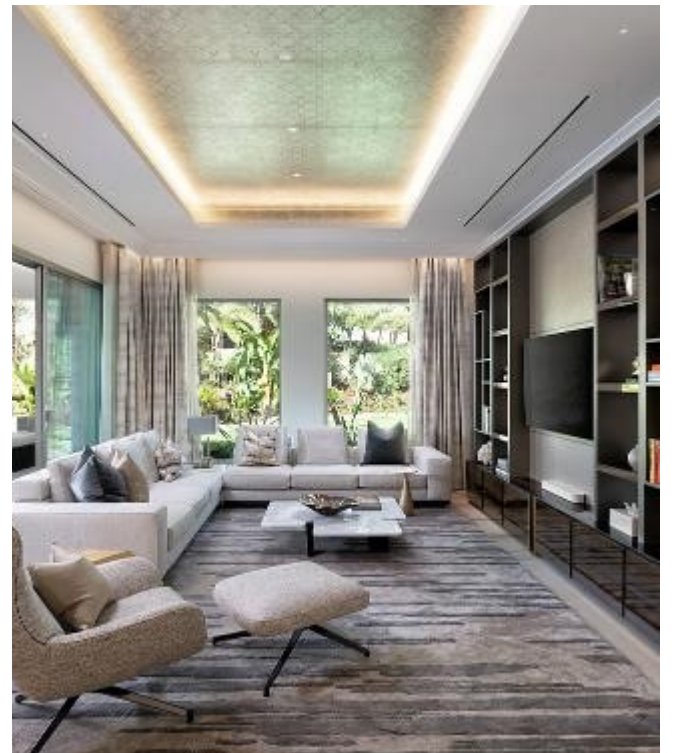

We pride ourselves in our pursuit— delivering more than a dozen incredible homes.

We understand that tastes diverge, that is why, for us, each client is a whole new story.

Each design is unique, each solution tailored; every project we undertake, with love.

Idlesquare — the idea of delivering a home (square) that sits idle (complete).

03

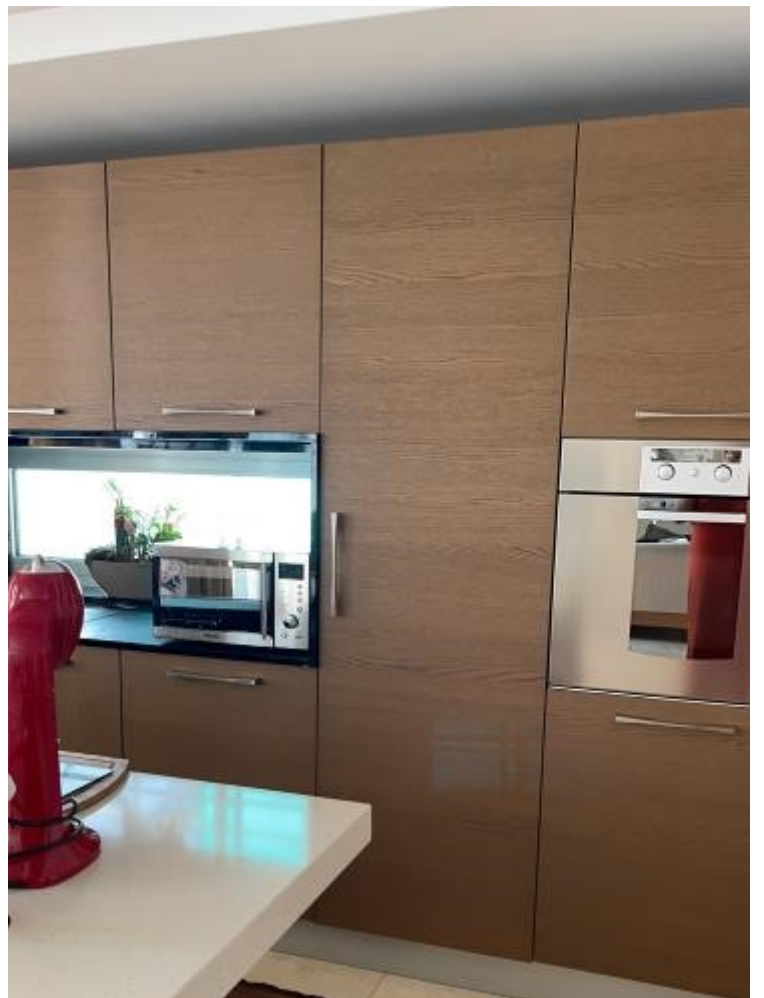

Our Work

The team consists of people with 25 years experience in construction and renovation.

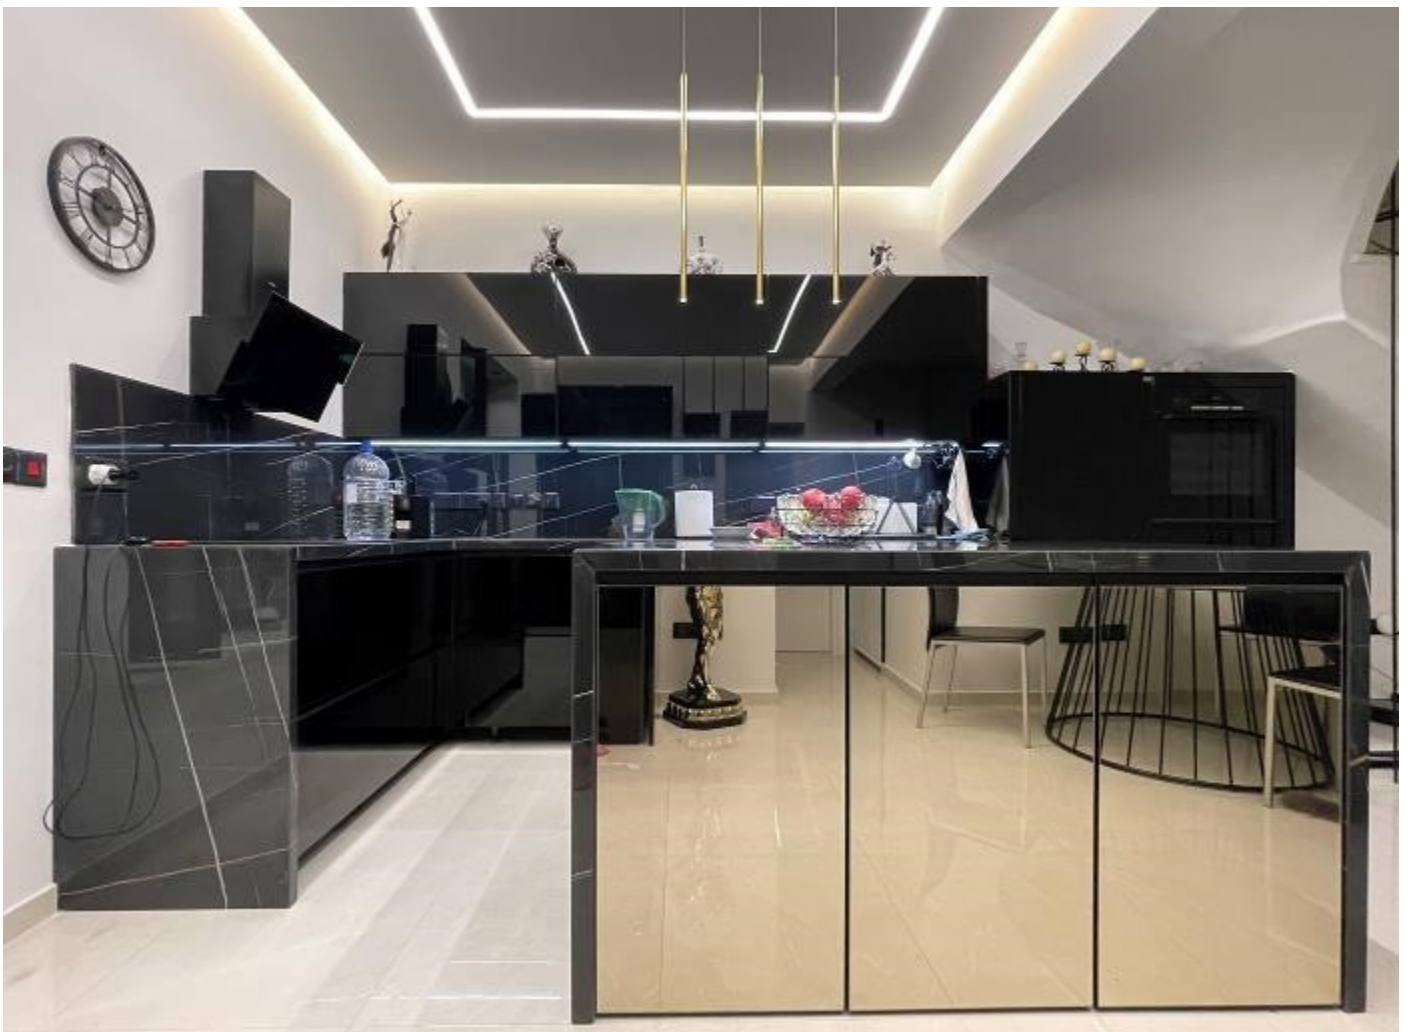

As a new entity we only have a handful of great projects that we can showcase.

From hereon we showcase some of our work.

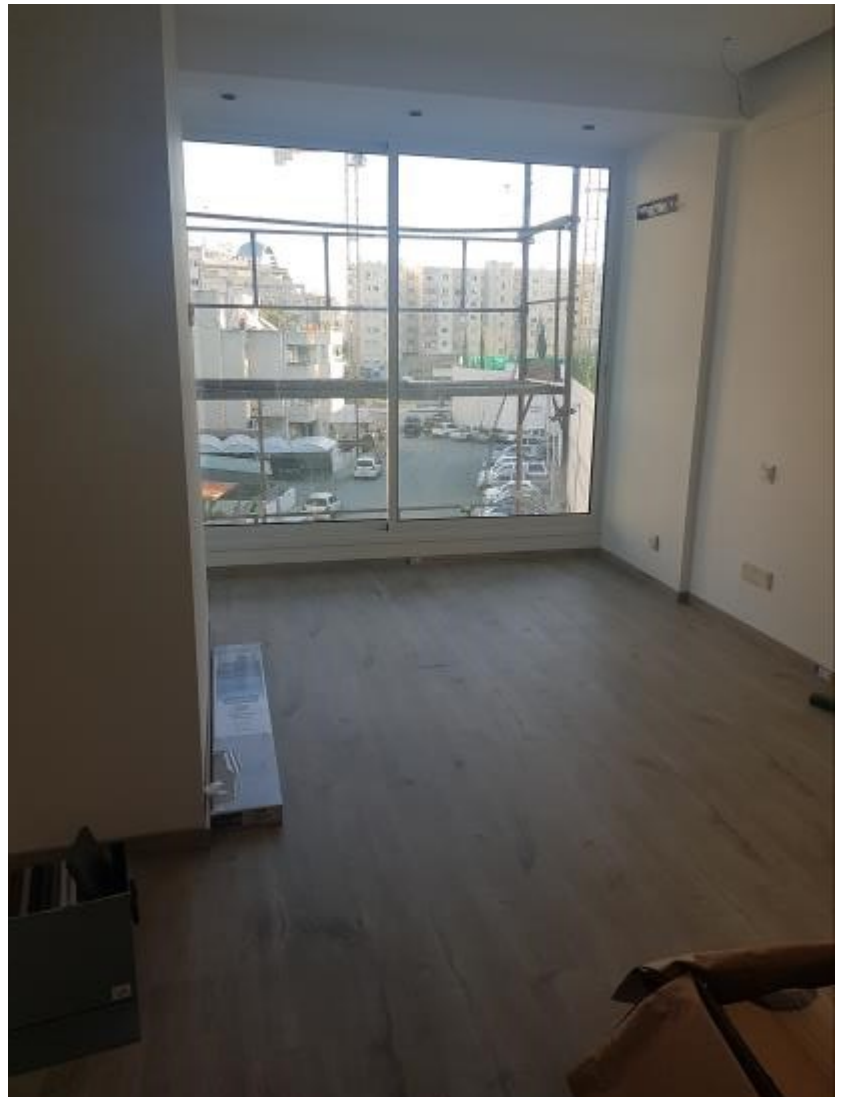

04

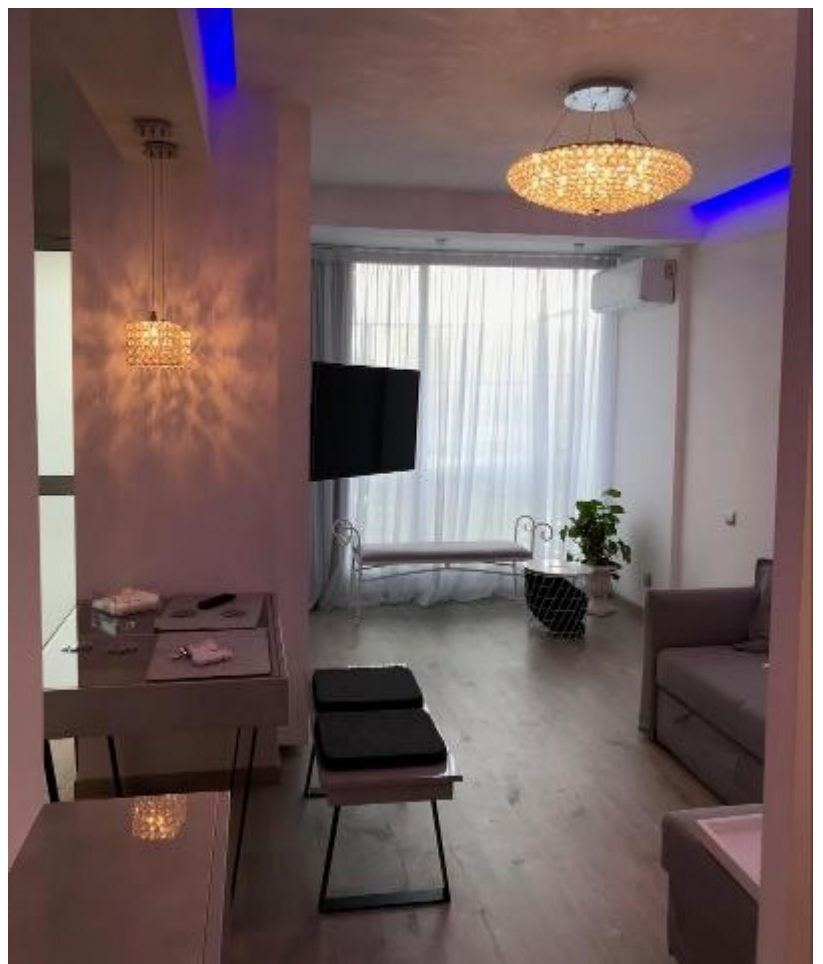

Case Study 1

We love conceptualizing homes from scratch and prefer working with unfurnished spaces.

The studio that you see was old, felt small and was falling apart.

We took care of the project, from concept to reality. The following two pages show how we turned a simple studio into an aesthetic home in the heart of Limassol.

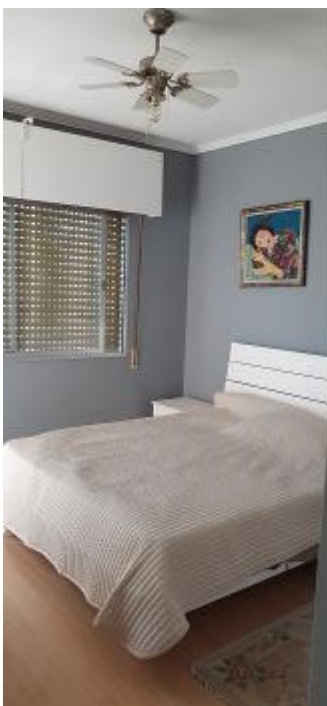

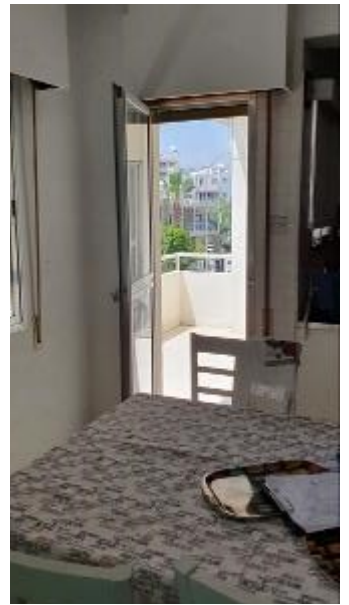

05

Case Study 2

Many of our projects involve complete tear downs, as you will see in this case study.

The flat that you see was old, felt small and was falling apart.

We took care of the project, from concept to reality. The following few pages show how we turned a simple 1-bedroom apartment into an exceptional vibe.
